## GERMAN TROOPS ADVANCING IN SERBIA CAPTURE 2500 MORE MEN

Invaders Occupy Heights West of Pristina—Serbians Recapture Krushevo in Southern Serbia—Four Divisions of Bulgarians Hammering on French Lines—Monastir Surrounded—Germans Pushing Campaign in Galicia—Entente Allies Placing Formidable Army in the Balkans—More Men on the Way.

London, Nov. 27, 4:54 p. m.—The Serbians have recaptured Krushevo, in southern Serbia about 20 miles west of Prilep according to a dispatch to the Star from Athens.

Berlin, Nov. 27, via London, 3:50 p. m.—German troops advancing in Serbia have occupied the heights on the left bank of the Sittica river, west of Pristina, German headquarters announced today. The Austrians are advancing southwest of Mitrovitsa. The capture of 2,500 more Serbians is recorded.

Russian Report Denied.  
Berlin, Nov. 27, by wireless to Sayville.—Reports from Vienna say that the Russian announcement of the capture of Czartorysk is untrue, says the Overseas News Agency. "Czartorysk has been burned to the ground. Russian patrols which attempted to cross the Sty river were repulsed and there are no Russian forces on the west bank."

Norwegian Steamship Sunk.  
London, Nov. 27, 12:16 p. m.—The Norwegian steamship Kari has been sunk. Her crew of eight men was landed.

The Klar was owned in Christiania. She was 194 feet long, 595 tons gross and was built in 1884.

Many Soldiers Killed.  
Constantinople, Nov. 27.—Via London, 12:10 p. m.—An announcement from the Turkish war office today says that a large number of soldiers of the allied force have been killed in recent fighting on the Gallipoli peninsula near the landing place at Ari Burnu. Destruction of guns of large and small caliber near Anafarta and Ari Burnu also is reported.

101,000 Serbs Captured.  
Berlin, Nov. 27.—By wireless to Sayville.—The number of Serbian prisoners taken up to the present time by the German, Austro-Hungarian and Bulgarian troops, says the Overseas News Agency, totals 101,000 officers and men. The invading forces also have rescued 2,000 Austro-Hungarians who had been made prisoners by the Serbians, but later were abandoned during the hasty retreat of King Peter's forces.

Germans Use Gases.  
Paris, Nov. 27, 2:35 p. m.—The French war office report this afternoon says: "Yesterday between Forges and Bethancourt, west of the river Meuse, the enemy projected suffocating gases without result."  
"A German aeroplane yesterday fell into the river Aisne east of Berry-aux-Bac. The aviator escaped by swimming. We destroyed the machine."

### Review of War Situation.

London, Nov. 27, noon.—The Serbian forces soon will become an army without a country unless the French should defeat the Bulgarians, four divisions of whom are said to be hammering at the French lines. Reports arrive from various sources that Montenegro has been surrounded by Bulgarians and that they may not wait for their Austro-German allies before entering the Macedonian capital.

The main Serbian army, retreating in a southwesterly direction before Field Marshal von Mackensen's troops, may find no rest even in Greek territory, as it is reported here that the invaders of Serbia would be liable to cross into Greece. Apparently the German leaders expect the Serbians and their allies will await attack in Greece. It is said these operations will be under the supreme command of Field Marshal von Mackensen.

Additional reports from the battle at Ctesippou in Mesopotamia, near Bagdad, indicate that the British forces won a substantial success instead of suffering a reverse as first accounts led everyone to believe.

Diplomatic Active in Greece.  
The diplomatic representatives at Athens of the entente powers are still active, their latest effort to settle definitely all outstanding questions being the presentation to Premier Skoufoulidis of a note detailing measures deemed indispensable for the security and freedom of action of the allied troops.

The situation along the Rumanian frontier, where a great Russian force is said to have been gathered, is still obscure. The display by the Rumanian public of feeling in favor of the entente is regarded in London as an indication that the nation is in a position to disregard the demands of the central powers.

Germans To Push Campaign.  
No definite news has been received of the renewed Austro-German offensive in Galicia. It is expected, however, that this movement will be pushed energetically for the political effect on Rumania.

Formidable Army in Balkans.  
Notwithstanding Serbian reverses, the entente allies apparently are placing formidable armies in the Balkans. Unofficial advices from Athens say that some 125,000 men already have landed at Saloniki, while 40,000 or 15,000 more are on the way. A semi-official announcement in Berlin gives the number of Serbians

## ALLIED TROOPS STILL LANDING

Important British Reinforcements Reach Saloniki—Soldiers Arrive in Large Numbers.

### SERBIANS RETREATING

Main Body Unable to Maintain Positions Owing to Greatly Superior Force of Invaders.

London, Nov. 27, 12:40 a. m.—Allied troops continue to land at Saloniki in large numbers. A Reuter dispatch filed yesterday at Saloniki says that important British reinforcements reached that port on Thursday and were landed immediately. After the occupation of Pristina by the Austrians and Germans, the message says, the main body of Serbians retreated in a southerly direction. The Serbians were unable to maintain their positions in the Katchan's region, owing to the greatly superior forces of the invaders.

Official announcement has been made to commanders of the allied troops at Saloniki of the guarantees given by the Greek government relative to freedom of action of their armies. Winter has set in earlier than usual in the Balkans. It is expected military operations on both sides will be greatly hampered thereby.

## BRITISH RETAKE ANCIENT CITY

Large Quantity of Arms and Ammunition and 1300 Prisoners Taken at Ctesippou.

London, Nov. 27, 10:50 a. m.—The battle between British and Turkish forces at Ctesippou, near Bagdad, which for a time looked like a check to the Mesopotamian expedition, is now reported to have been a success of first importance.

Information received today is that the retirement of the British after the capture of Ctesippou occasioned by the lack of water was only temporary. After the Turks withdrew in the direction of Bagdad, as announced officially yesterday, the British reoccupied their former position, encountering no opposition as they took possession of Ctesippou for the second time.

Trenches Filled With Dead.  
British troops at once began the work of clearing the Turkish trenches which were filled with dead or wounded soldiers. The British captured a large quantity of arms and ammunition in addition to the 1,300 prisoners previously reported.

Ctesippou has been the scene of many futile battles. The ancient city was besieged and plundered a dozen times by Greek and Roman invaders from the east before the Arabs finally sacked it.

## JOFFRE PROMOTES YOUNG GENERALS

Seven Division and Three Brigade Generals Transferred and Places Given Younger Men.

Paris, Nov. 26, 11:45 p. m.—The constant efforts of General Joffre, the French commander in chief, to keep the higher commands in the charge of men of proved vigor and initiative

## ABERDEENS TO BE IN OGDEN ON TUESDAY, DECEMBER 14

MARQUIS OF ABERDEEN.

MARCHIONESS ABERDEEN.

Marquis and Marchioness Aberdeen, lately viceroy and vicereine of Ireland, have agreed to address the citizens of Ogden, at the Tabernacle, December 14, on conditions in Ireland, for the purpose of raising money for Lady Aberdeen's fund for promoting philanthropic enterprises in that country. For the past ten years Lord and

Lady Aberdeen have occupied the viceregal lodge in Dublin, and from 1893-8, the marquis was governor-general of Canada. The marchioness is president of the International Council of Women.

The Aberdeens came to America to attend the Panama-Pacific exposition and to address meetings in the large cities in the states on behalf of social welfare activities in Ireland. Throughout their long residence in Ireland, they were constantly active on behalf of the poor and suffering.

Lord Aberdeen received his new title of marquis only last January. Before that the most imposing of his titles was Earl of Aberdeen. His family name is Gordon.

are exemplified once more by an announcement in the Official Journal that seven division generals and three brigade generals have been transferred to the reserve. Their places have been given to younger men who have distinguished themselves in recent operations.

Among the officers retired are General A. M. D. Drude and General de Mas Latrie.

General Drude came into prominence at the time of the Moroccan crisis between Germany and France in 1907. At the time he was commander of the French troops in Morocco. A large part of his life has been spent in the colonies. He is 64 years old.

General de Mas Latrie, before the war, was commander of the Eighteenth army corps.

Pittsburg, Pa., Nov. 27.—Enormous shipments of freight for export continue to go east from the Pittsburg district in spite of congested terminals at important Atlantic seaboard points and in yards along the various railroads between here and New York. Railroad officials said today that every possible expedient was being used to handle the tremendous freight movement, even to the liberal expenditure of money for additional terminals.

One official said that the lines were not suffering so much from lack of cars as in the past, but from lack of track room, many cars being held because it was not possible to secure dock space for their contents while waiting for vessels to load them on.

## ROADS CHOKED WITH FREIGHT

Delaware, Lackawanna and Western Lines Filled With Cars They Cannot Move.

### EMBARGO ORDER ISSUED

Agents Not to Accept Any More Freight Until Further Orders.

New York, Nov. 27.—The Delaware, Lackawanna & Western railroad, whose lines are choked as far back as Scranton with loaded freight cars it cannot move, today instructed its agents to accept no more freight for export until further notice.

More than 6,000 loaded cars from the west, all containing grain, feed, flour, copper and hundreds of other commodities, have virtually turned the terminals and sidings of the road into a storage warehouse for weeks. Some of the cars have been here for eighty days.

Every Railroad Glutted.  
Inquiry at other railroad offices developed that nearly every railroad with a terminus here is glutted with freight cars standing loaded and idle on sidings for hundreds of miles back along the line and that other roads would follow the Lackawanna's lead shortly.

New York Terminals Clogged.  
For months New York, mouth of the bottle through which pours the great bulk of America's export trade, has been clogged with freight in excess of the facilities of the steamship companies attempting to handle it. The movement of the big cereal crops and the unprecedented demand in Europe for copper, steel and other metals used in warfare, has swollen exports within the past sixty days to figures undreamed of before.

In October alone exports to the value of approximately \$175,000,000 left New York on 393 ships.

The temporary check to the incoming tide is for the purpose, it was said today, of enabling the steamship companies to catch up in part with the traffic and to permit the railroads to clear their terminals and sidings. The Lackawanna's order says that shipments billed up to and including November 27 will be accepted.

## FRENCH DEFEAT BULGAR FORCES

Enemy Forces to Retreat—Serbians Still Attacking Forts Covering Prilep.

London, Nov. 27, 3 a. m.—A dispatch to the Daily Mail from Saloniki referring to a French counter-attack against the Bulgarians in Serbia in which the French recaptured most of their lost positions on the Krivopal-Cerna-Rajec line, says the Bulgarians were compelled to retreat because they had attempted to force the French lines with their full strength and had left in the rear no covering troops.

"The Serbians are still attacking the Bulgarian forts covering Prilep," says the correspondent, "but the result of the fighting is not known. Austro-Germans are marching on Uskup. British reinforcements continue to disembark."

"There are indications of a possible disagreement between the Turks and Bulgarians, arising out of the presence of Turkish forces in Thrace. Five Turkish divisions are at Sufli and one division each at Mustafa-Pasha, Varna, and Burjan."

## ARMY DEFEATS NAVY 14 TO 0

President and His Fiancee Are Among the 40,000 Spectators.

Polo Grounds, N. Y., Nov. 27.—West Point defeated Annapolis at football on the Polo grounds today by the score of 14 to 0, giving the Soldiers their third successive victory over the Sailors. Olinhart, the former University star, was the hero of the battle. He scored all of the cadets' points—two touchdowns and two goals. The game, while not brilliant, was desperately fought as Army and Navy contests always are.

The cadets made their first touchdown early in the first period after the Navy had made a disastrous fumble. The other West Point score came in the third period when the marvelous Olinhart smashed his way through the whole Navy team for the score.

Rain fell during most of the game. A heavy mist hung over the field and the players had difficulty in following the ball.

More than 40,000 persons saw the game, including President Wilson and his fiancée, Mrs. Norman Galt.

There was the usual spectacular after the game.

The Army cheered the Navy and the Navy cheered the Army, and everybody cheered the big red, white and blue flag planted in the center of a big circle formed by the Army squad.
